Statement D (concluded)

### INTRODUCTION

The \_Millennium Port Authority\_(BTA) was created by the Louisiana State Legislature under the provisions of Louisiana Revised Statute \_R.S. 34:3471. The following is a brief description of the operations of Millennium Port Authority (BTA) which includes the parish/parishes in which the (BTA) is located:

### A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### BASIS OF ACCOUNTING

In April of 1984, the Financial Accounting Foundation established the Governmental Accounting Standards Board (GASB) to promulgate generally accepted accounting principles and reporting standards with respect to activities and transactions of state and local governmental entities. The GASB has issued a Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification). This codification and subsequent GASB pronouncements are recognized as generally accepted accounting principles for state and local governments. The accompanying financial statements have been prepared in accordance with such principles.

The accompanying financial statements of Millennium Port Authority (BTA) present information only as to the transactions of the programs of the Millennium Port Authority (BTA) as authorized by Louisiana statutes and administrative regulations.

Basis of accounting refers to when revenues and expenses are recognized and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The accounts of the Millennium Port Authority Millennium Port Authority (BTA) are maintained in accordance with applicable statutory provisions and the regulations of the Division of Administration – Office of Statewide Reporting and Accounting Policy as follows:

### Revenue Recognition

Revenues are recognized using the full accrual basis of accounting; therefore, revenues are recognized in the accounting period in which they are earned and become measurable.

### **Expense Recognition**

Expenses are recognized on the accrual basis; therefore, expenses, including salaries, are recognized in the period incurred, if measurable.

### B. BUDGETARY ACCOUNTING

The appropriations made for the operations of the various programs of the \_\_\_\_\_ (BTA) are annual lapsing appropriations. None

- 1. The budgetary process is an annual appropriation valid for one year.
- 2. The agency is prohibited by statute from over expending the categories established in the budget.
- 3. Budget revisions are granted by the Joint Legislative Committee on the Budget, a committee of the Louisiana Legislature. Interim emergency appropriations may be granted by the Interim Emergency Board.

4. The budgetary information included in the financial statements includes the original appropriation plus subsequent amendments as follows: None

|                          | APPROPRIATIONS |
|--------------------------|----------------|
| Original approved budget | \$             |
| Amendments:              | <del></del>    |
|                          | ·              |
| •                        |                |
| Final approved budget    | \$             |

- C. DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS (If all agency cash and investments are deposited in the State Treasury, disregard Note C.) See Appendix B for information related to Note C.
- 1. DEPOSITS WITH FINANCIAL INSTITUTIONS

For reporting purposes, deposits with financial institutions include savings, demand deposits, time deposits, and certificates of deposit. Under state law the Millennium Port Authority (BTA) may deposit funds within a fiscal agent bank selected and designated by the Interim Emergency Board. Further, the (BTA) may invest in time certificates of deposit in any bank domiciled or having a branch office in the state of Louisiana; in savings accounts or shares of savings and loan associations and savings banks and in share accounts and share certificate accounts of federally or state chartered credit unions.

For the purpose of the Statement of Cash Flows and balance sheet presentation, all highly liquid investments (including negotiable CDs and restricted cash and cash equivalents) and deposits (including nonnegotiable CDs and restricted cash and cash equivalents) with a maturity of three months or less when purchased are considered to be cash equivalents.

Deposits in bank accounts are stated at cost, which approximates market. Under state law these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These pledged securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank in the form of safekeeping receipts held by the State Treasurer.

GASB Statement 40, which amended GASB Statement 3, eliminated the requirement to disclose all deposits by the three categories of risk. GASB Statement 40 requires only the disclosure of deposits that are considered to be exposed to custodial credit risk. An entity's deposits are exposed to custodial credit risk if the deposit balances are either 1) uninsured and uncollateralized, 2) uninsured and collateralized with securities held by the pledging financial institution, or 3) uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the entity's name.

The deposits at \_ June 30, 2008, consisted of the following:

|   |                 | <u>Cash</u>               |            | Nonnegotiable<br>Certificates<br>of Deposit | Other<br>( <u>Describe)</u> |             | <u>Total</u> |

| Custodial Credit Risk   |                 |                           |            |   |                             |             |              |

Investments can be exposed to custodial credit risk if the securities underlying the investment are uninsured, not registered in the name of the entity, and are either held by the counterparty or the counterparty's trust department or agent but not in the entity's name. Repurchase agreements are not subject to credit risk if the securities underlying the repurchase agreement are exempt from credit risk disclosure. Using the table on the next page, list each type of investment disclosing the total carrying amounts and market values, and any amounts exposed to custodial credit risk.

3.

GASB Statement 40 amended GASB Statement 3 to eliminate the requirement to disclose all investments by the three categories of risk. GASB Statement 40 requires only the separate disclosure of investments that are considered to be exposed to custodial credit risk. Those investments exposed to custodial credit risk are reported by type in one of two separate columns depending upon whether they are held by a counterparty, or held by a counterparty's trust department or agent not in the entity's name. In addition, the total reported amount and fair value columns still must be reported for total investments regardless of exposure to custodial credit risk. NO investments

### D. CAPITAL ASSETS - INCLUDING CAPITAL LEASE ASSETS

The fixed assets used in the Special Purpose Government Engaged only in Business-Type Activities are included on the balance sheet of the entity and are capitalized at cost. Depreciation of all exhaustible fixed assets used by the entity is charged as an expense against operations. Accumulated depreciation is reported on the balance sheet. Depreciation for financial reporting purposes is computed by the straight line method over the useful lives of the assets.

| 1.              | COMPENSATED ABSENCES   |
| The             | (BTA) has the following policy on annual and sick leave: (Describe leave policy.)  |
| An e            | xample disclosure follows:   |
| The term        | loyees earn and accumulate annual and sick leave at various rates depending on their years of service. amount of annual and sick leave that may be accumulated by each employee is unlimited. Upon ination, employees or their heirs are compensated for up to 300 hours of unused annual leave at the loyee's hourly rate of pay at the time of termination. Upon retirement, unused annual leave in ss of 300 hours plus unused sick leave is used to compute retirement benefits. |
| curre<br>the    | cost of leave privileges, computed in accordance with GASB Codification Section C60, is recognized as a ent year expenditure in the fund when leave is actually taken; it is recognized in the enterprise funds when eave is earned. The cost of leave privileges applicable to general government operations not requiring ent resources is recorded in long-term obligations.  |
| 2.              | COMPENSATORY LEAVE   |
|                 | loyees who are considered having non-exempt status according to the guidelines contained in the Fair or Standards Act may be paid for compensatory leave earned (K-time). Upon termination or transfer, an loyee will be paid for any time and one-half compensatory leave earned and may or may not be paid for   |

### H. RETIREMENT SYSTEM None; no employees

recorded in the accompanying financial statements.

Substantially all of the employees of the (BTA) are members of the Louisiana State Employees Retirement System (LASERS), a single employer defined benefit pension plan. The System is a statewide public employee retirement system (PERS) for the benefit of state employees, which is administered and controlled by a separate board of trustees. (Note: If LASERS is not your entity's retirement system, indicate the retirement system that is and replace any wording in this note that doesn't apply to your retirement system with the applicable wording.)

All full-time (BTA) employees are eligible to participate in the System unless they elect to continue as a contributing member in any other retirement system for which they remain eligible for membership. Certain elected officials and officials appointed by the governor may, at their option, become members of LASERS. Normal benefits vest with 10 years of service. Generally, retirement age employees are entitled to annual benefits equal to \$300 plus 2.5% of their highest consecutive 36 months' average salary multiplied by their years of credited service except for members eligible to begin participation in the Defined Benefit Plan (DBP) on or after July 1, 2006. Act 75 of the 2005 Regular Session changes retirement eligibility and final average compensation for members who are eligible to begin participation in the DBP beginning July 1, 2006. Retirement eligibility for these members is limited to age 60, or thereafter, upon attainment of ten years of creditable service. Final average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment.

Vested employees eligible to begin participation in the DBP before July 1, 2006, are entitled to a retirement benefit, payable monthly for life at (a) any age with 30 years of service, (b) age 55 with 25 years of service, or (c) age 60 with 10 years of service. In addition, these vested employees have the option of reduced benefits at any age with 20 years of service. Those hired on or after July 1, 2006 have only a single age option. They cannot retire until age 60 with a minimum of 10 years of service. The System also provides death and disability benefits and deferred benefit options, with qualifications and amounts defined by statute. Benefits are established or amended by state statute. The System issues a publicly available annual financial report that includes financial statements and required supplementary information for the System. For a full description of the LASERS defined benefit plan, please refer to the LASERS 2007 Financial Statements, specifically, footnotes A – Plan Description and C – Contributions. That report may be obtained by writing to the Louisiana State Employees Retirement System, Post Office Box 44213, Baton Rouge, Louisiana 70804-4213, or by calling (225) 922-0608 or (800) 256-3000. The footnotes to the Financial Statements contain additional details and are also available on-line at:

http://www.lasers.state.la.us/PDFs/Publications and Reports/Fiscal Documents/Comprehensive Financial Reports/Comprehensive%20Financial%20Reports 07.pdf

Members are required by state statute to contribute with the single largest group ("regular members") contributing 7.5% of gross salary, and the (BTA) is required to contribute at an actuarially determined rate as required by R.S. 11:102. The contribution rate for the fiscal year ended June 30, 20\_\_, decreased / increased to \_\_\_% of annual covered payroll from the \_\_\_% and \_\_\_% required in fiscal years ended June 30, 2007 and 2006 respectively. The (BTA) contributions to the System for the years ending June 30, 2008, 2007, and 2006, were \$\_\_\_\_\_, \$\_\_\_\_, and \$\_\_\_\_\_, respectively, equal to the required contributions for each year.

### I. OTHER POSTEMPLOYMENT BENEFITS

GASB Statement 45 requires Other Postemployment Benefit disclosures. If your only subsidized healthcare and life insurance provider for retirees is OGB, your entity will have no additional note disclosures for OSRAP; however, if your entity issues separately issued financial statements, then you should include the GASB Statement No. 45 note disclosures in your separately issued financial statements. Also, please provide OSRAP with the applicable GASB 45 note disclosures if your entity's healthcare or life insurance provider for retirees is administered by an entity other than OGB.

### I. Plan Description

- a) Name of Plan
- b) Identify entity that administers the plan
- c) Type of plan: (FYI OGB is considered an agent multiple employer plan)
- d) Brief description of the types of benefits
- e) Authority under which benefit provisions are established and may be amended
- f) Whether the OPEB plan issues a stand alone financial report or is included in the report of a PERS or another entity, and, if so how to obtain the report.

### II. Funding Policy

- a) Authority under which the obligations of the plan members, employers, and other contributing entities (e.g., state contributions to local government plans) to contribute to the plan are established or may be amended.
- b) Required contribution rates of plan members (amount per member or percentage of covered payroll).
- c) Required contribution rates of the employer in accordance the funding policy (in dollars or as percentage of current-year covered payroll) and, if applicable, legal or contractual maximum contribution rates: If the plan is a single-employer or agent plan and the rate differs significantly from the ARC, disclose how the rate is determined (e.g., by statute or contract) or that the plan is financed on as pay as you go basis. If the plan is a cost-sharing plan, disclose the required contributions in dollars and the percentage of that amount contributed for the current year and each of the two preceding years, and how the required contribution rate is determined (e.g., by statue or by contract, or on an actuarially determined basis) or that the plan is financed on a pay-as-you go basis.

### III. Additional disclosures for sole and agent employers for each plan:

- a) For current year (CY), annual OPEB cost and the dollar amount of contributions made. If the employer has a net OPEB obligation, also disclose the components of annual OPEB cost (ARC, interest on the net OPEB obligation, and the adjustment to the ARC), the increase or decrease in the net OPEB obligation, and the net OPEB obligation at the end of the year.
- b) For the current year and each of the two preceding years, annual OPEB cost, percentage of annual OPEB cost contributed that year, and net OPEB obligation at the end of the year. (For the first two years, the required information should be presented for the transition year, and for the current and transition years, respectively.)
- c) Information about the funded status of the plan as of the most recent valuation date, including the actuarial valuation date, the actuarial value of assets, the actuarial accrued liability, the total unfunded actuarial liability (or funding excess), the actuarial value of assets as a percentage of the actuarial accrued liability (trunded ratio), the annual covered payroll, and the ratio of the unfunded actuarial liability (or funding excess) to annual covered payroll. The information should be calculated in accordance with the parameters. However, employers that meet the criteria in GASB Statement 45, paragraph 11 may elect to use the alternative measurement method discussed in GASB Statement 45, paragraphs 33 through 35. Employers that use the aggregate actuarial cost method should prepare this information using the entry age actuarial cost method for that purpose only.
- d) Information about the actuarial methods and assumptions used in valuations on which reported information about the ARC, annual OPEB cost, and the funded status and funding progress of OPEB plans is based. Including the following:
  - 1) Disclosure that actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and that actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.
  - 2) Disclosure that the required schedule of funding progress immediately following the notes to the financial statements presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.
  - 3) Disclosure that calculations are based on the types of benefits provided under the terms of the substantive plan at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. In addition, if applicable, the employer should disclose that the projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations (as discussed in the disclosure of funding policy in paragraph II(c) above) on the pattern of cost sharing between the employer and plan members in the future.
  - 4) Disclosure that actuarial calculations reflect a long-term perspective. In addition, if applicable, disclosure that, consistent with that perspective, actuarial methods and assumptions used include

techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

- 5) Identification of the actuarial methods and significant assumptions used to determine the ARC for the current year and the information required by paragraph III(c) above. The disclosures should include:
- (a) The actuarial cost method.
- (b) The method(s) used to determine the actuarial value of assets.
- (c) The assumptions with respect to the inflation rate, investment return (including the method used to determine a blended rate for a partially funded plan, if applicable), postretirement benefit increases if applicable, projected salary increases if relevant to determination of the level of benefits, and, for postemployment healthcare plans, the healthcare cost trend rate. If the economic assumptions contemplate different rates for successive years (year-based or select and ultimate rates), the rates that should be disclosed are the initial and ultimate rates.
- (d) The amortization method (level dollar or level percentage of projected payroll) and the amortization period (equivalent single amortization period, for plans that use multiple periods) for the most recent actuarial valuation and whether the period is closed or open. Employers that use the aggregate actuarial cost method should disclose that because the method does not identify or separately amortize unfunded actuarial liabilities, information about funded status and funding progress has been prepared using the entry age actuarial cost method for that purpose, and that the information presented is intended to approximate the funding progress of the plan.

### IV. Required Supplementary Information -

Sole and agent employers should present the following information for the most recent actuarial valuation and the two preceding valuations:

- a. Information about the funding progress of the plan, including, for each valuation, each of the elements of information listed in paragraph III(c) above.
- b. Factors that significantly affect the identification of trends in the amounts reported, including, for example, changes in benefit provisions, the size or composition of the population covered by the plan, or the actuarial methods and assumptions used. (The amounts reported for prior years should not be restated.)

The information should be calculated in accordance with the parameters and should be presented as RSI. Employers that use the aggregate actuarial cost method should prepare the information using the entry age actuarial cost method and should disclose that fact and that the purpose of this disclosure is to provide information that approximates the funding progress of the plan.

If the cost-sharing plan in which an employer participates does not issue and make publicly available a stand-alone plan financial report prepared in accordance with the requirements of Statement 43, and the plan is not included in the financial report of a PERS or another entity, the cost-sharing employer should present as RSI in its own financial report schedules of funding progress and employer contributions for the plan (and notes to these schedules), prepared in accordance with the requirements of Statement 43. The employer should disclose that the information presented relates to the cost-sharing plan as a whole, of which the employer is one participating employer, and should provide information helpful for understanding the scale of the information presented relative to the employer.

The following is an illustration of notes to the financial statements and schedule of funding progress for an employer contributing to an agent multiple-employer defined benefit healthcare plan:

City of XYZ

Notes to the Financial Statements for the Year Ended June 30, 20X2

### Note X. Postemployment Healthcare Plan

<u>Plan Description</u>. The city's defined benefit postemployment healthcare plan, XYZ Postemployment Healthcare Plan (XPHP), provides medical benefits to eligible retired city employees and their beneficiaries. XPHP is affiliated with the Municipal Retired Employees Health Plan (MREHP), an agent multiple-employer postemployment healthcare plan administered by the ABC Retirement System. Article 39 of the Statutes of the State of ABC assigns the authority to establish and amend the benefit provisions of the plans that participate in MREHP to the respective employer entities; for XPHP, that authority rests with the city of XYZ. The ABC Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for MREHP. That report may be obtained by writing to ABC Retirement System, 399 Grocer Aisle, Caffe, RO 02000, or by calling 1-877-555-PLAN.

<u>Funding Policy</u>. The contribution requirements of plan members and the city are established and may be amended by the MREHP board of trustees. XPHP members receiving benefits contribute \$75 per month for retiree-only coverage and \$150 per month for retiree and spouse coverage to age 65, and \$40 and \$80 per month, respectively, thereafter.

The city of XYZ is required to contribute the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The current ARC rate is 13.75 percent of annual covered payroll.

<u>Annual OPEB Cost</u>. For 20X2, the city's annual OPEB cost (expense) of \$870,517 for XPHP was equal to the ARC. The city's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 20X2 and the two preceding years were as follows:

| Fiscal<br>Year<br><u>Ended</u> | Annual<br>OPEB Cost | Percentage of<br>Annual OPEB<br><u>Cost Contributed</u> | Net<br>OPEB<br><u>Obligation</u> |
|--------------------------------|---------------------|---|----------------------------------|
| 6/30/X0                        | \$929,401           | 100%  | \$0                              |
| 6/30/X1                        | 910,042             | 100   | 0                                |
| 6/30/X2                        | 870,517             | 100   | 0                                |

Funded Status and Funding Progress. The funded status of the plan as of December31, 20X1, was as follows:

| Actuarial accrued liability (AAL)               | \$19,490,482 |
|---|--------------|
| Actuarial value of plan assets                  | 15,107,180   |
| Unfunded actuarial accrued liability (UAAL)     | 4,383,302    |
| Funded ratio (actuarial value of plan assets/AA | L) 77.5%     |
| Covered payroll (active plan members)           | \$6,331,031  |
| UAAL as a percentage of covered payroll         | 69.2%        |

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that

shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

<u>Actuarial Methods and Assumptions</u>. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the December 31, 20X1, actuarial valuation, the entry age actuarial cost method was used. The actuarial assumptions included a 7.5 percent investment rate of return (net of administrative expenses) and an annual healthcare cost trend rate of 12 percent initially, reduced by decrements to an ultimate rate of 5 percent after ten years. Both rates include a 4.5 percent inflation assumption. The actuarial value of XPHP assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a three-year period. XPHP's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at December 31, 20X1, was twenty-two years.

### REQUIRED SUPPLEMENTARY INFORMATION Schedule of Funding Progress for XPHP

| Actuarial<br>Valuation<br>Date | Actuarial<br>Value of<br>Assets<br>( a ) | Actuarial<br>Accrued<br>Liability<br>(AAL)-<br>Entry Age<br>(b) | Unfunded<br>AAL<br>(UAAL) (<br>b-a) | Funded<br>Ratio<br>( a/b ) | Covered<br>Payroll<br>( c ) | UAAL as a<br>Percentage<br>of Covered<br>Payroll<br>((b-a) / c) |

| Total                           | _ :<br>_ : | -       | <br><br>- \$ - |         | -<br>-<br>\$ |         | <br>_ \$. | · ·     | -<br>-<br>-<br>\$ | \$      |                  | _<br>_<br>\$_ |                 |

### 2. CAPITAL LEASES None

Capital leases are/are not recognized in the accompanying financial statements. The amounts to be accrued for capital leases and the disclosures required for capital and operating leases by National Council on Governmental Accounting (NCGA) Statement No. 5, as adopted by the Governmental Accounting Standards Board, and FASB 13 should be reported on the following schedules:

Capital leases are defined as an arrangement in which <u>any one</u> of the following conditions apply: (1) ownership transfers by the end of the lease, (2) the lease contains a bargain purchase option, (3) the lease term is 75% of the asset life or, (4) the discounted minimum lease payments are 90% of the fair market value of the asset.

Schedule A should be used to report all capital leases <u>including</u> new leases in effect as of 6/30/08. In Schedule B, report only those new leases entered into during fiscal year 2007-2008.

### SCHEDULE A - TOTAL AGENCY CAPITAL LEASES EXCEPT LEAF

| Nature of lease | Gross Amount of<br>Leased Asset<br>( <u>Historical Costs</u> ) | Remaining interest to end of lease | Remaining principal to end of lease |
|-----------------|--|------------------------------------|-------------------------------------|
| a. Office space | \$\$   |                                    | _\$                                 |
| b. Equipment    |  |                                    |                                     |
| c. Land         |  |                                    |                                     |
| Total           | \$\$   | -<br>-                             | \$ <u> </u>                         |

The following is a schedule by years of future minimum lease payments under capital leases together with the present value of the minimum lease payments as of (last day of your fiscal year) and a breakdown of yearly principal and interest: (Note: If lease payments extend past FY2028, create additional rows and report these future minimum lease payments in five year increments.)

| Year ending June    | 30 :                 |                          |             | Total                 |

| Less amounts representing interest          |       |
| Present value of net minimum lease payments | \$    |

### 3. LESSOR DIRECT FINANCING LEASES

A lease is classified as a direct financing lease (1) when any one of the four capitalization criteria used to define a capital lease for the lessee is met and (2) when both the following criteria are satisfied:

- Collectibility of the minimum lease payments is reasonably predictable.
- No important uncertainties surround the amount of the unreimbursable costs yet to be incurred by the lessor under the lease.

Provide a general description of the direct financing agreement and complete the chart below:

| Composition of lease Date of lease   | Minimum lease payment receivable   | Remaining interest to end of lease   | Remanining principal to end of lease                          |
|--|--|--|---|
| a. Office space  | \$   | \$   | \$  |
| b. Equipment   |  |  | ·   |
| c. Land  |  |  |   |

### L. CONTINGENT LIABILITIES None

GAAP requires that the notes to the financial statements disclose any situation where there is at least a reasonable possibility that assets have been impaired or that a liability has been incurred along with the dollar amount if it can reasonably be estimated. Do not report impaired capital assets as defined by GASB 42 below, rather disclose GASB 42 impaired capital assets in Note CC. Losses or ending litigation that is probable should be reflected on the balance sheet.

| The                  | (BTA) is a | a defendant | in litigation | seeking         | damages a | as follows: | (Only list | litigation | not |
|----------------------|------------|-------------|---------------|-----------------|-----------|-------------|------------|------------|-----|
| being handled by the | Office of  | Risk Manage | ment or the   | <b>Attorney</b> | General.) |             |            |            |     |

| Date of Action | Description of Litigation and Probable outcome (Reasonably possible or probable) | Estimated Set<br>Amt for Claims &<br>(Opinion of lega | & Litigation | Insurance<br>Coverage |
|----------------|--|---|--------------|-----------------------|
|                |  | \$  | \$<br>       |                       |
| Totals         |  | \$  | \$           |                       |

Those agencies collecting federal funds, who have been informed that certain of their previously claimed costs were disallowed, should disclose the requested information in the schedule shown below. Show each possible disallowance on a separate line in the chart.

<sup>\*</sup>Note: Liability for claims and judgments should include specific, incremental claim expenses if known or if it can be estimated. For example, the cost of outside legal assistance on a particular claim may be an incremental cost, whereas assistance from internal legal staff on a claim may not be incremental because the salary costs for internal staff normally will be incurred regardless of the claim. (See GASB 30, paragraph 9)

### W.

٧.

Disclose any material event(s) affecting the (BTA) occurring between the close of the fiscal period and issuance of the financial statement.

### X. SEGMENT INFORMATION None

Governments that report enterprise funds or that use enterprise fund accounting and reporting standards to report their activities are required to present segment information for those activities in the notes to the financial statements. For purposes of this disclosure, a segment is an identifiable activity (or group of activities), reported as or within an enterprise fund or another stand-alone entity that has one or more bonds or other debt instruments outstanding, with a revenue stream pledged in support of that debt. In addition, the activity's revenues, expenses, gains and losses, assets, and liabilities are required to be accounted for separately. This requirement for separate accounting applies if imposed by an external party, such as accounting and reporting requirements set forth in bond indentures. Disclosure requirements for each segment should be met by identifying the types of goods and services provided and by presenting condensed financial statements in the notes, including the elements in A through C below (GASB 34, paragraph 122, as modified by GASB 37, paragraph 17.)

### CC. IMPAIRMENT OF CAPITAL ASSETS None

GASB 42 establishes accounting and financial reporting standards for the impairment of capital assets and for insurance recoveries. Governments are required to evaluate prominent events or changes in circumstances affecting capital assets to determine whether impairment has occurred. A capital asset generally should be considered impaired if both (a) the decline in service utility of the capital asset is large in magnitude and (b) the event or change in circumstance is outside the normal life cycle of the capital asset. See Appendix D for more information on GASB 42 and the Impairment of Capital Assets.

The following capital assets became permanently impaired in FY 07-08: (Insurance recoveries related to impairment losses should be used to offset those impairment losses if received in the same year as the impairment. Include these insurance recoveries in the third column in the table below. Calculate the net impairment loss after insurance recoveries received in the current fiscal year in the fourth column. Include in the Financial Statement Classification column the account line in which the net impairment loss is reported in the financial statements. There are five indicators of impairment described in Appendix D, (1) physical damage, (2) enactment of laws, etc. List the appropriate number (1-5) to identify the indicator of impairment in the second to last column below.)

### **DD. EMPLOYEE TERMINATION BENEFITS None**

Termination benefits are benefits, other than salaries and wages, that are provided by employers as settlement for involuntary terminations initiated by management, or as an incentive for voluntary terminations initiated by employees. Voluntary termination benefits include benefits such as enhanced early retirement options resulting from an approved early retirement plan.

Other termination benefits may include:

- 1. Early retirement incentives, such as cash payments, enhancement to defined benefit formula
- 2. Healthcare coverage when none would otherwise be provided (COBRA)
- 3. Compensated absences, including payments for leave balances
- 4. Payments due to early release from employment contracts

GASB 47 requires the following disclosures about an employer's accounting for employee termination benefits:

- 1. A description of the termination benefit arrangement(s)
- 2. Period the employer becomes obligated
- 3. Number of employees affected
- 4. Cost of termination benefits
- 5. Type of benefit(s) provided
- 6. The period of time over which the benefits are expected to be provided
- If the termination benefit affects the defined benefit pension (OPEB) obligations, disclose the change in the actuarial accrued liability for the pension or OPEB plan attributable to the termination benefit
- 8. When termination liabilities are reported, disclose the significant methods and assumptions used to determine the liabilities to be disclosed (for as long as the liability is reported)

## The GASB 47 note disclosures listed below are provided as an example and should be modified as necessary.

| Substantially all employees are eligible for termination benefits upon separation from the state. The agence recognizes the cost of providing these benefits as expenditures when paid during the year. For 2008, the cost of providing those benefits for (number of) voluntary terminations totaled \$ For 2008, the cost of providing those benefits for (number of) involuntary terminations totaled \$ [The termination benefits (voluntary and involuntary) paid in FY 2008 should also be included in the Statemer of Revenues, Expenses, and Changes in Fund Net Assets on the account line "Administrative" in the Operating Expense Section.] |
|---|
| The liability for the accrued voluntary terminations benefits payable at June 30, is \$ This liability consists of (number of) voluntary terminations. The liability for the accrued involuntary terminations benefits payable at June 30, is \$ This liability consists of (number of) involuntary terminations.  [The termination benefits (voluntary and involuntary) payable at fiscal year end should also be included on the Balance Sheet in the "compensated absences payable" account line.]   |
| If a termination benefit is not recognized because the expected benefits are not estimable, the employer should disclose that fact. Briefly describe termination benefits provided to employees as discussed above. If none, please state that fact.  |
|   |

A terminated employee can continue to access health benefits, however, if the COBRA participant is paying the ENTIRE premium then there is no state contribution on behalf of this individual. Therefore, when a terminated employee pays 100% of the premium, the state would not have a termination liability.
